

MAN Diesel, Bramhall Moor Lane, Hazel Grove, Stockport

Instruction Knight Frank's Northern Planning Team, on behalf of MAN Diesel, obtained planning permission for Stage One redevelopment works comprising construction and replacement of industrial/warehouse and office buildings, including a new access road, car parking and servicing at their UK headquarters in Stockport.

The planning permission changes the use of the site from manufacturing to servicing, allowing the new office and warehouse development to act as an academy to serve the whole company.

Stage Two redevelopment works comprise the remainder of the site. Potential land uses are currently being determined and a planning application will follow at the end of the year.
