
Landlord guide to property management

Step one: Instructing Knight Frank

If you instruct Knight Frank to manage your property, you will be introduced to your designated property manager, who will help prepare your property for market. This can include anything from changing lightbulbs to organising redecoration works. We are also able to assist with professional cleaning, purchasing furniture and organising removals. You can keep track of all your property management requirements and maintenance through the My Knight Frank portal. My Knight Frank makes it quick and easy to view your property and tenant information, and access resources to guide you through your journey. You'll also be able to access to your tenancy accounts. If you don't yet have a My Knight Frank account, please speak to one of our dedicated agents to register for the portal.

Step two: Preparing your property for tenancy

Once an offer has been accepted and tenant references completed, we will prepare your property

for occupation. This will include undertaking any necessary works (as detailed in terms), organising a professional clean and ensuring compliance with all required certifications. Invoices will be paid out of a management float retained from funds received for the float in advance, but larger works will be agreed in advance.

Step three: Moving in

From the start of the tenancy, we will be available to deal with any queries. The inventory will be agreed and your tenant will be provided with the details of our contractor for out-of-hours emergencies. Utility providers and the local council will be updated with meter readings and your tenant's details, with final bills checked and processed by your property manager. Please also ensure you have cancelled any direct debits for these.

Step four: Tenant queries

Once your tenant has moved in, the property manager will be the main point of contact for any related queries, including

any maintenance issues. It is the tenant's responsibility to ensure we are notified of any issues at the property, so that we are able to assist where necessary.

Step five: Ongoing maintenance

When issues are reported, we will make an assessment and proceed as previously agreed. If a contractor is needed, we will contact you for instruction (unless otherwise agreed) and arrange a time that's suitable for the tenants. All our contractors are verified Safe Contractors and can visit using keys which are held with the local office.

Step six: Property visits

At least twice a year, a property visit will be carried out. These visits allow us to assess the property's condition without intruding on your tenants' privacy. We will report any concerns and inform you of any necessary maintenance.
